**Economic substance test generally**

4. (1) Subject to sections 5 and 6, a relevant business company meets the economic substance test in relation to a relevant activity that the business company carries on if it satisfies all 3 conditions A, B and C in relation to the relevant activity.

(6) For the purposes of subsection (5), the economic substance of third party providers shall not be counted multiple times by multiple companies when evidencing their own economic substance in Anguilla.

**Economic substance test for high-risk intellectual property entities**

5. (1) A high-risk intellectual property entity is deemed to fail to meet the economic substance test in relation to its intellectual property business unless it demonstrates to the satisfaction of the Registrar that there is and historically has been a high degree of control over the development, exploitation, maintenance, enhancement and protection of its intellectual property asset, exercised by an adequate number of full-time employees with the necessary qualifications who permanently reside and perform these activities in Anguilla.

(2) A high-risk intellectual property entity seeking to demonstrate the matter specified in subsection (1) shall file with the Registrar any information or evidence reasonably required by the Registrar for this purpose, including—
